Setup Survey Legend iPad

Onboard the iPad into Intune by following this article https://bookstack.pbr.org.au/books/ios-devices-intune/page/onboarding-ios-devices-into-intune

Add the iPad to the following enrollment profile

- ***PBR iPad Profile*** - This is for iPads running Survey Legend, Better Impact or Employment Hero
- Add the iPad to the ***Intune_iOS_Wifi*** Group. Its important to do this and ensure it is working before putting into Kiosk mode, as you can lock yourself out of the iPad. The best way to check the WiFi policy has been applied is go to Settings, Wi-Fi click on the connected wifi network 'internet' and see if the option to 'Forget This Network' is available . If this option is not available then the policy is applied.
- Set display brightness to max

Now you need to remove the passcode set earlier, Intune | Devices | select the device and click 'remove passcode'

Now you need to assign the device to the ***Intune_iPads_SL*** AAD group. This will enable Kiosk Mode and create the bookmarks for Safari

Once iPad is in Kiosk Mode, you just need to configure Kiosk Pro Lite to - (this can all be done from app when in full kiosk mode)

  - open Survey Legend Site - https://s.surveylegend.com/-N4AITZs17ndh7Om04dX
  - open webpage when apps starts, set to be on touch gesture & passcode (setup same passcode for all Survey Legend iPads) in 1Password
  - hide address bar
  - hide navigation bar
  - set idle Time limit to 0 seconds

Summary Of Applied Profiles & Policies for Survey Legend iPads
