Signing in / Syncing OneDrive

Step-by-step guide

1. Search for **Onedrive** in Windows and open the app.

2. The OneDrive icon will appear in the right-hand corner of the taskbar. Click on it to open OneDrive.

3. Sign into OneDrive with your PBR credentials.

4. Click **Next**.
5. Make sure **Sync all files and Folders** is selected and then press **Start sync**.

6. Click through any remaining screens. Once done your files will sync to OneDrive.
7. Open **File Explorer** in Windows. You will now be able to see the folder under OneDrive - Puffing Billy Railway located in the left-hand menu.

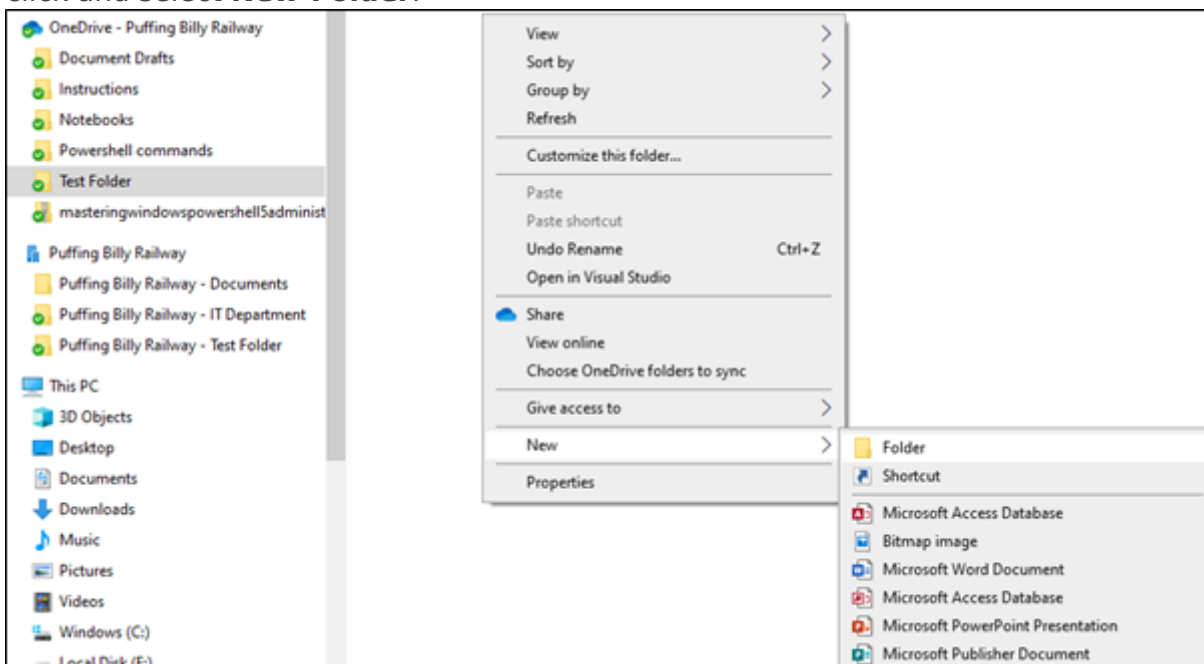

Be aware that when you create, modify or delete files in the folder it is automatically synced to OneDrive.

Creating a Folder in OneDrive

Step-by-step guide

1. Navigate to the **OneDrive folder** where you would like to create the new Folder. Right click and select **New-Folder**.

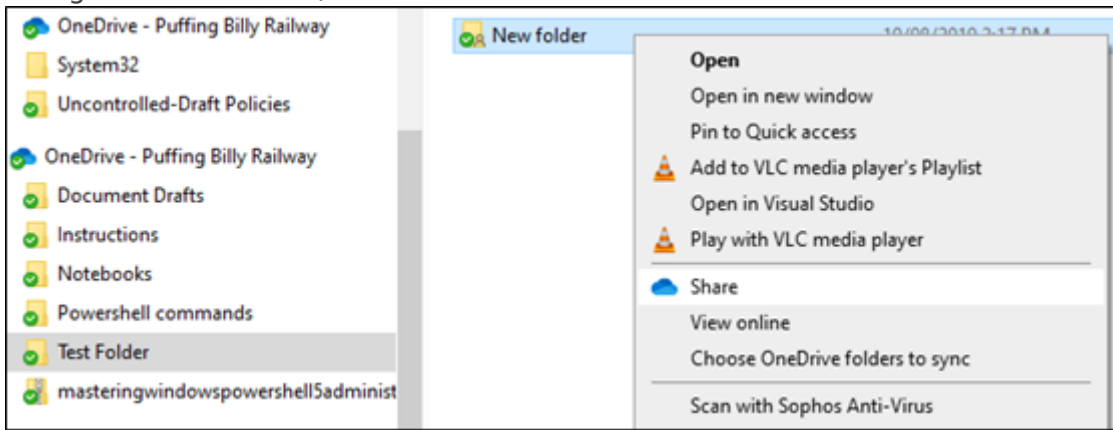

2. Enter in the folder name.

Name	Date modified	Type	Size
 <input type="text" value="New folder"/>	19/08/2019 2:17 PM	File folder	

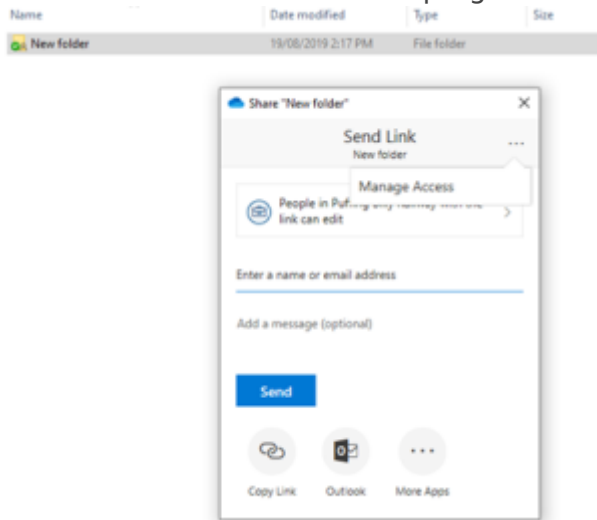

Removing Access to a Folder/File

Step-by-step guide

1. Navigate to the Folder/File and click on **Share**.

2. Click the **three dots** in the top right-hand corner and select **Manage Access**.

3. Click on the **X** to remove access to the folder/file.

This will remove access to all users you have shared the folder/file with. If you wish to remove only certain users, you will need to do this in the web version of OneDrive. Please see [**Removing Access to a File \(Web\)**](#).

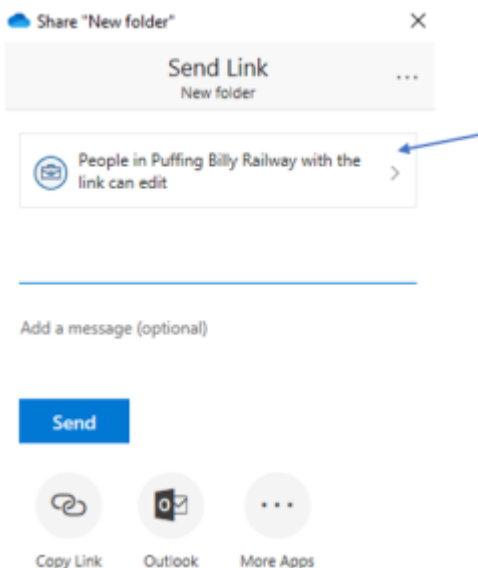

Sharing Folders & Files

Step-by-step guide

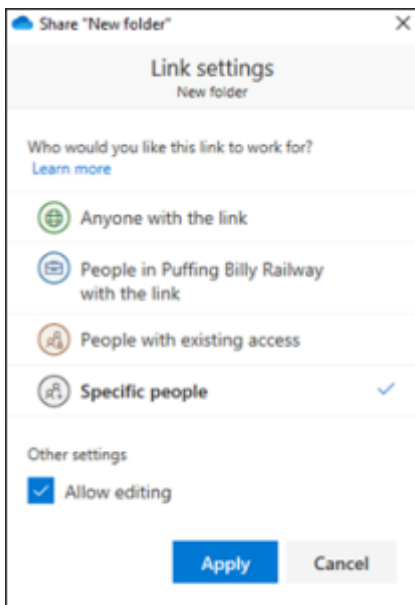

1. Navigate to the folder/file you wish to share, right click the folder/file and click on **Share**.

2. Select who you would like to have access to the folder/file.

3. For example, if you wish to share the folder/file with only specific users you can select **Specific people**. By default, the user will have editing access. Untick **Allow editing** if you wish the user/s to only have read access. Click **Apply** when done.

4. Enter in the user's name and click **Send**. The user will receive an email letting them know they now have access to the folder/file.

If you share a folder it will share all folders and files within that folder. You will need to do each folder or file individually if you only want certain items to be shared.
