Setup email on an iPhone

Follow the below steps to setup email on your iPhone.

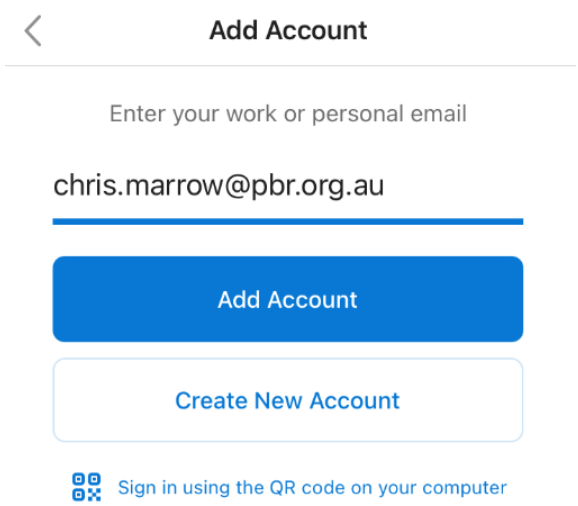

Step-by-step guide

1. Go to **Apple Store** on your phone and search for **Outlook** and download it.

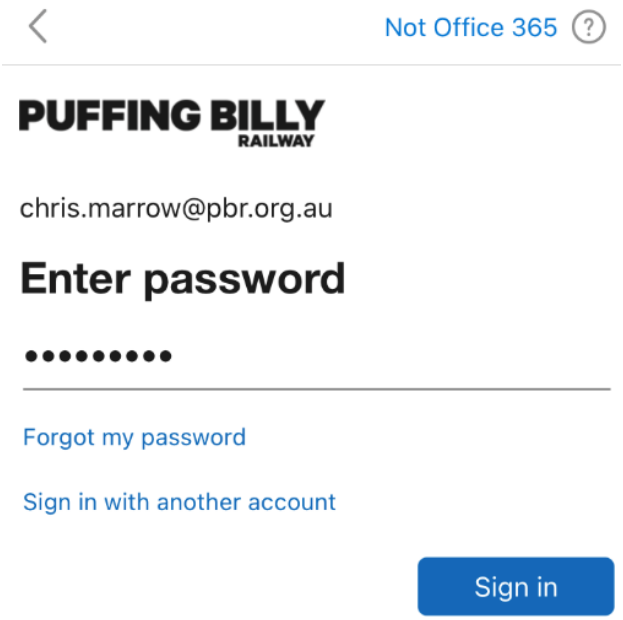

2. Open **Outlook.** You may already see your PBR email address listed. Click on **Add Account**

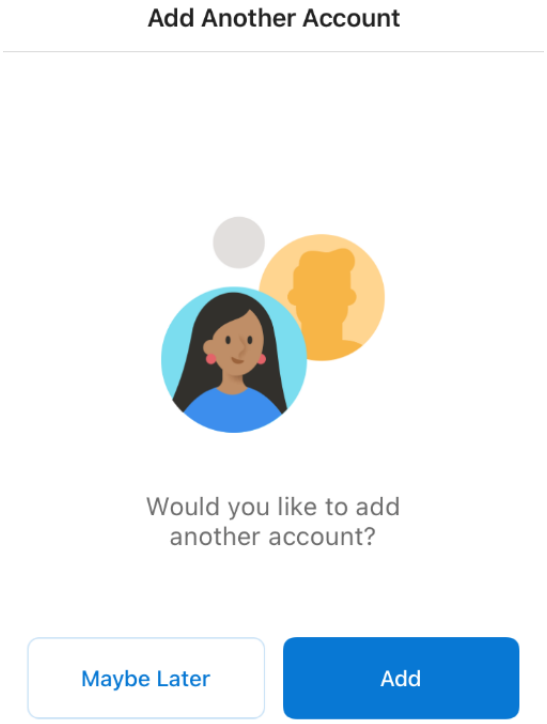

3. Enter in your PBR Email if prompted, then click the **Add Account Button.**

4. Enter in your PBR Email password and click **Sign In**.

5. You can add another account if required, otherwise click on **Maybe Later.**

6. You will now be taken to your inbox
