

Signature 365 - Overview

PBR Utilizes **Signature 365** as an email signature solution

The Signature 365 portal can be accessed <https://app.signature365.com/> all members of IT team have administrators access to this site and logon with their own creds.

This solution is integrated with 365 tenant, with transport rules and connectors being utilized to route emails through Signature365

The system automatically adds email signatures to emails sent from PBR

The following email clients show the signature whilst composing the email

- Outlook Client
- Outlook on the web
- Outlook on smartphone

With all other email clients the signature will be added (*injected*) after the email have been sent
