Connecting to PBR Corporate WiFi Network

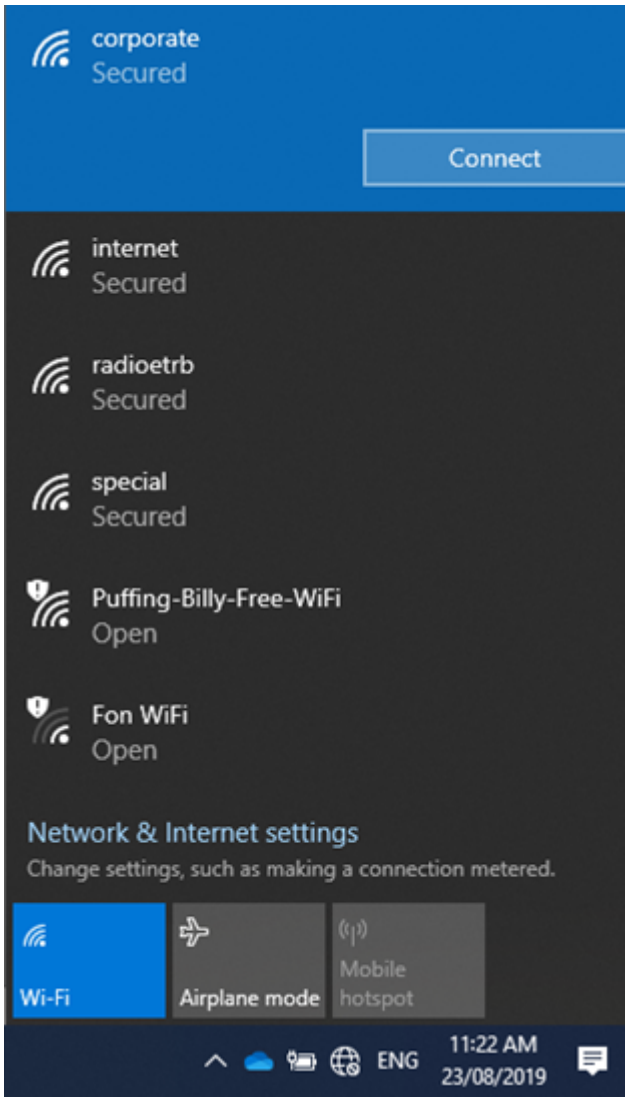

For those with a Puffing Billy username and password, you can connect to corporate with your username and password.

Step-by-step guide

1. Bring up the available WiFi networks by clicking the **WiFi button** (globe or radio wave symbol depending on your version of Windows).

2. Select **corporate** and click **connect.** You should automatically be connected. If you are asked to enter in credentials enter in your PBR login and password.
